

Sam Havron

Cornell Tech – 2 West Loop Road
New York, NY 10044

Email: havron@cs.cornell.edu
Web: <https://havron.dev>

Research Interests

Computer security and privacy: human-centered security, digital safety, and privacy, especially in the context of marginalized and highly vulnerable communities.

Education

Cornell University

Ph.D. and M.S. in Computer Science
In residence at Cornell Tech, NYC.
Advisors: [Thomas Ristenpart](#) and [Nicola Dell](#).

New York, NY
August 2017 - present

University of Virginia

B.S. in Computer Science

Charlottesville, VA
August 2014 - May 2017

Awards

- Advocate of New York City Award. 2019
- Best Paper Honorable Mention for [P3] at ACM CSCW. November 2019
- Cornell Graduate School Fellowship. Top 20% of Cornell doctoral students receive this fellowship. August 2017
- Louis T. Rader Award for Outstanding Undergraduate Education at the University of Virginia. May 2017

Research Impact

- Led direct interventions to help over 118 victims (to-date) of intimate partner violence navigate technology abuse [P2].
- Based on our study [P1], Google stopped serving advertisements on search terms relating to intimate partner violence and increased enforcement of Play Store policies.

Publications

[P3] Diana Freed*, **Sam Havron***, Rahul Chatterjee, Emily Tseng, Andrea Gallardo, Thomas Ristenpart, Nicola Dell. “Is my phone hacked?” Analyzing Clinical Computer Security Interventions with Survivors of Intimate Partner Violence. Proceedings of the ACM on Human-Computer Interaction: Vol. 3, Issue CSCW, Article 202 (2019) (**ACM CSCW**).
[Best Paper Honorable Mention Award](#). *co-equal first authors.

[P2] **Sam Havron***, Diana Freed*, Rahul Chatterjee, Damon McCoy, Nicola Dell, Thomas Ristenpart. Clinical Computer Security for Victims of Intimate Partner Violence. 28th USENIX Security Symposium, 2019 (**USENIX Security**). *co-equal first authors.

- [P1] Rahul Chatterjee, Periwinkle Doerfler, Hadas Orgad, **Sam Havron**, Jackeline Palmer, Diana Freed, Karen Levy, Nicola Dell, Damon McCoy, Thomas Ristenpart. The Spyware Used in Intimate Partner Violence. 39th IEEE Symposium on Security and Privacy 2018 (**IEEE S&P**).

Posters

- [PS1] **Sam Havron**, David Evans. Poster: Secure Multi-Party Computation as a Tool for Privacy-Preserving Data Analysis. 37th IEEE Symposium on Security and Privacy 2016 (**IEEE S&P**).

Presentations

- *Lawyers Committee Against Domestic Violence (LCADV)*, New York, NY, “Clinical Computer Security for Victims of Intimate Partner Violence” September 12th, 2019
- *28th USENIX Security Symposium*, Santa Clara, CA, “Clinical Computer Security for Victims of Intimate Partner Violence” August 14th, 2019
- *Empire Hacking*, New York, NY, “Clinical Computer Security for Victims of Intimate Partner Violence” June 11th, 2019
 - “This was one of the **best-reviewed talks** of any recent @EmpireHacking,” Dan Guido (CEO, Trail of Bits) <https://twitter.com/dguido/status/1178734756747468800>
- *Bronx Legal Services*, The Bronx, NY, “Clinical Computer Security for Victims of Intimate Partner Violence” June 4th, 2019

Select Media Coverage

Titles are clickable. Full list is available at: <https://havron.dev/media>

- U.S. Senator Kamala Harris (D-CA) tweeted about an NPR (WBUR) podcast featuring our team (podcast published November 27, 2019)
- “NYC Has Hired Hackers to Hit Back at Stalkerware,” *MIT Technology Review* (August 14, 2019)
- “New Tools Help Detect Digital Domestic Abuse,” *Cornell Chronicle* (August 13, 2019)
- “How ‘Stalkerware’ Apps are Letting Abusive Partners Spy on Their Victims,” *MIT Technology Review* (July 10, 2019)
- “The Simple Way Apple and Google Let Domestic Abusers Stalk Victims,” *WIRED* (July 2, 2019)
- “Tech Can Impact Domestic Violence – Not Always in a Positive Way,” *Smart Cities Dive* (May 30, 2019)
- “Hacker Eva Galperin Has a Plan to Eradicate Stalkerware,” *WIRED* (April 3, 2019)
- “Hundreds of Apps Can Empower Stalkers to Track Their Victims,” *The New York Times* (May 19, 2018)

Teaching Experience

- Graduate Teaching Assistant, Cornell CS 5435 Fall 2018
Computer Security and Privacy in the Wild (by Prof. Ari Juels)
- Undergraduate Teaching Assistant, UVA CS 2150 Spring 2016 - Spring 2017
Data Structures and C++ (by Prof. Aaron Bloomfield)
- Undergraduate Teaching Assistant, UVA CS/ECE 2330 Fall 2015 - Fall 2016
Digital Logic Design (by Prof. Joanne Dugan)

Department and Community Service

- Technology Consultant - Computer Security Clinic for IPV Survivors New York, NY
Helped lead a [computer security clinic](#) for over 118 IPV survivors to-date. November 2018 - present
- Research Mentor - Women in Technology and Entrepreneurship New York, NY
in New York (WiTNY). Mentored 2 undergraduate research interns. Summer 2019 - present
- Peer Mentor - Cornell Tech PhD Peer Mentorship Program New York, NY
Mentored one junior CS PhD student. December 2019 - present
- Instructor - Expanding Your Horizons (EYH) for Girls Ithaca, NY
Taught middle school girls from at-risk communities April 2018
about computer programming, e.g., using paper airplanes
as an analogy for TCP/IP protocols. 500+ girls attend EYH.
- Contest Judge - UVA High School Programming Contest Charlottesville, VA
Helped create coding problems and run the largest Spring 2015 - Spring 2017
programming competition for high school students
in the mid-Atlantic region of the U.S.
- Social Chair of PhD student association at Cornell Tech (PACT). New York, NY, December 2019 - present
- Secretary of Cornell Computer Science Graduate Organization (CSGO). Ithaca, NY, August 2017 - May 2018

Relevant Courses Taken

Security & Privacy Technologies (CS 6431)	Advanced Algorithms (CS 6820)
Advanced Programming Languages (CS 6110)	Applied Machine Learning (CS 5785)
Designing Secure Cryptography (CS 6831)	

Skills

- Select pinned GitHub repositories: <https://github.com/havron>
 - havron/daas: Marketplace app implemented with tiered Docker microservices, including search and recommendation engines, load balancing, CI staging & deployment, and more.
 - stopipv/isdi: Non-invasive spyware and stalkerware scanning tool for iOS and Android.
- Programming Languages:
 - Standard proficiency: Python, Java, C++
 - Cursory proficiency: OCaml, C, JavaScript, Rust, SQL
- Technologies/frameworks:
 - Systems: Bash scripting, Linux, Git, Vim
 - Data Analysis: Jupyter Notebooks, scikit-learn, pandas
 - Modern Web Development: Docker, Django, Travis CI, Flask, AWS (EC2, S3, DynamoDB, λ , etc), Hugo static web compiler
 - Technical Writing: \LaTeX , Overleaf
